BIOGRAPHY

Short Bio:

J. L. Lora is a Dominican-American author. Her stories explore the dark side of good characters, people living in the gray areas of life while playing the cards life has dealt them. She writes about strong heroines and their equally powerful Men. She lives in Maryland, pursuing her dream of writing compelling, sexy, can't-put-down stories about empowered, badass alpha heroines and take-your-breath-away alpha heroes.

Long Bio:

J. L. Lora writes contemporary and romantic suspense. Through her stories, she exorcises the stories that play in her head and move her heart. Her characters are as real as the people walking around her and their stories combine passion and humor with hard topics.

JL explores the dark side of good characters, people who are backed into corners, and how they react to it.

She was born in the Dominican Republic and came to the United States at the age of 13. The change of life combined with her awkward (and she means seriously awkward) teenage years, made for a hard transition. She found solace in the Yonkers Public Library, where she discovered Johanna Lindsay and Jude Deveraux. Nothing has been the same since.

Writing has always been a passion for JL, ever since she recited a poem in 5th grade to mothers everywhere. In her spare time, she writes poetry, fanfiction, and short stories. And of course, reads.

She's currently working on building her passion into a full-time career. By day, she holds a regular 9-5. During my evenings, she works in pursuit of the dream by writing bad-ass, in-control heroines, and heroes that make your heart pound fast fast fast.

CROWNED HEART OF EXCELLENCE REVIEW FOR SOME DAYS

"When interracial and inter-social romance intersects, loyalty and love are tested. This theme carries throughout the book and is thoughtfully presented with all the feels. The subplots of a neighbor and husband constantly fighting, and a double murder mystery are creatively woven in between it all. Don't forget the romance and a very affluent family's drama that's included as well. This well-rounded story has genuine, relatable content, which readers will gobble up."
